## PROYECTO LIFE EGGSHELLENCE (REF.: LIFE19 ENV/ES/000121)

**LIFE EGGSHELLENCE is presented in a w2W between innovative companies.**

Castellón, 25/10/2021.- The **LIFE EGGSHELLENCE** project, funded by the LIFE programme Ref: (REF: LIFE19 ENV/ES/000121), was presented on 22 October in the first session of the **Entrepreneurship with Talent Forum Cycle on Circular Economy**, entitled: **Industrial Symbiosis, a W2W between innovative companies**, held online on 22/10/2021. Specifically, the presentation was entitled: "Industrial symbiosis in egg product waste" and was conducted by **Jesús Valero**, from the company **MAINCER**, a participant in the project.

This initiative has been organised by **CEEI Castellón**, financed by the **Instituto Valenciano de Competitividad Empresarial** de la **Generalitat Valenciana (IVACE)** with the collaboration of the **Instituto de Tecnología Cerámica (ITC-AICE)**, the **Diputación de Castellón** and the **Asociación Nacional de Técnicos Cerámicos (ATC)**.

The researcher Mónica Vicent from AICE-ITC intervened to explain the "Definition of Industrial Symbiosis / Implementation at European, national and regional level". Also noteworthy was the presentation of the REWACER project: "Industrial symbiosis in water", by ITC-AICE researcher Alicia Andreu, and the intervention of the head of the Sustainability area of this institute, Irina Celades, who developed the "Methodology for the search for synergies (platforms)" and the "Technical, economic, environmental and social factors" surrounding industrial symbiosis.
